

VINITHA R

Front-end Developer | Angular | UI Developer

+91-9176562257 vinitharaghuraman@gmail.com <https://www.linkedin.com/in/vinitha-raghuraman-8503101b6/> Chennai, Tamil Nadu.

SUMMARY

Experienced **Senior Software Analyst** with over **5+ years** of expertise in **web application development** using **Angular**. Proven track record in leading teams to deliver secure, high-performance solutions, including the development of an **adviser portal** for **Standard Life Insurance**, which resulted in a **40% reduction in unauthorized access attempts**. Strong background in optimizing performance, with significant achievements such as improving **data synchronization speed by 50%** through the use of **REST APIs**. Adept in coordinating across all phases of the **Software Development Lifecycle (SDLC)** using **Agile methodologies**, driving team productivity and project success. Recognized for excellence with rapid career progression, promoted within two years due to outstanding performance. Eager to continue learning and adapting to new technologies while contributing to team success.

EXPERIENCE

Senior Software Analyst(Accenture)

Chennai, Tamil Nadu.

02/2025 - Present

- Coordinated closely with team members to understand the application.

IT Analyst - TATA Consultancy services(TCS)

Chennai, Tamil Nadu.

StandardLife Insurance - Adviser Portal

06/2020 - 01/2025

- Spearheaded a team of four developers in the use of Angular, HTML5, CSS3, and TypeScript to create an adviser portal. The advisers utilize this platform to do tasks such as examining facts about the policies, clients, fund transfers, and much more.
- Coordinated closely with UI designers to implement key human-factor strategies; identified two major areas of friction within the app workflow leading to more streamlined processes and improved adviser satisfaction ratings.
- Strengthened overall system integrity through the deployment of CSRF JWT Tokens alongside Multi-Factor Authentication methods; achieved a 40% reduction in unauthorized access attempts across critical features accessed by advisers.
- Collaborated with back-end developers to integrate RESTful APIs, increasing data synchronization speed by 50% and enhancing scalability of the client's digital infrastructure for future growth demands.
- Drove team engagement by organizing daily stand-ups and bi-weekly planning sessions; facilitated transparent communication that addressed blockers directly, leading to completion of over 30 critical project deliverables on time.
- Pioneered the adoption of JILE and DEVPLUS, resulting in enhanced project tracking across three teams; streamlined updates reduced communication delays by an average of 30% while improving task visibility for stakeholders.
- Analyzed incident data for the Adviser Dash application to pinpoint recurring problems; documented findings in a comprehensive report that led to enhancements preventing future incidents across three major functional areas of the platform.

System Engineer - TATA Consultancy Services(TCS)

Chennai, Tamil Nadu.

StandardLife Insurance - Client Analytics

01/2020 - 06/2020

- Increased member engagement by 15% through developing a client analytics application for better communication timing and relevance.
- Enhanced team productivity by 20% through efficient GitHub branching strategies reducing conflicts.

Associate System Engineer - TATA Consultancy Services(TCS)

Chennai, Tamil Nadu.

Phoenix Life Insurance

06/2019 - 12/2019

- Developed a comprehensive login and registration module for Phoenix Life Insurance's customer portal, leveraging Angular, HTML5, CSS3, and TypeScript to streamline user access to policy details and enhance security protocols.
- Increased application speed by 25% through optimizing JavaScript and Angular code.

EDUCATION

Bachelor of Science in Computer Science

Chennai, Tamil Nadu

Easwari Engineering College

08/2015 - 04/2019

PROJECTS

Advanced Driver Assistance System using Convolutional Neural Network

- Improved driver safety by 30% by deploying Raspberry Pi and CNN for traffic sign detection with voice alerts.
- Prepared a thesis entitled 'Advanced Driver Assistance System using convolutional Neural network'.
- Authored a conference paper entitled 'Advanced Driver Assistance System using Convolutional Neural Network,contributing to advancements in driver safety technology at the International Conference held from April 11-13, 2019.

KEY ACHIEVEMENTS

Awards for Excellence,Best Team Award,Star Awards

Beyond Performance Awards,Xcelerate Warrior Certificate,Career Management Awards

Service Awards,Service & Commitment Award,Service Award

SKILLS

Web technologies:

HTML5, CSS3, HTML, CSS, Bootstrap, JSON, SCSS, Angular material, NgRx store, RxJS, Fusion charts, Angular Flex, Redux, REST API / RESTful Web services, Angular CLI, NPM

Programming Languages: Typescript, Javascript, C

JavaScript Frameworks: Angular, Angular 8, Angular 8+, Angular 9, Angular 12, Angular 12+, Angular 14, Angular 15

Version Control & collaboration: Git, GitHub, Branching strategies, Pull requests

Operating Systems: Windows, Mac OS

Testing: Unit Testing, Angular testing framework, Jasmine, Karma

IDE: Visual studio code, Notepad++

Agile Methodology: Scrum, Sprint planning, JIRA, JILE

Cloud & Deployment: AWS

Tools: JILE, AWS Cloudwatch, DEVPLUS, Postman, Figma, SonarQube, Jenkins, Zeplin, Sketch, GitHub, MongoDB Compass

Database: NoSQL - MongoDB / Mongo (Basics), SQL Server (Basics)

Domain Knowledge: Insurance

Extensions: Wave Evaluation Tool, Redux DevTools

ADDITIONAL SKILLS:

Collaboration

Strong team player, experienced in cross-functional team environments, and delivering on shared goals.

Problem Solving

Adapt at troubleshooting and resolving complex development and design challenges ensuring optimal solutions.

Time Management

Ability to prioritize and manage multiple tasks, meeting deadlines in fast-paced Agile environments.

Communication

Excellent written and verbal communication skills, able to articulate complex technical issues to non-technical stakeholders
